### **July 2010 List**

**Our prices are GST inclusive**

**140 mm pots - \$4.10 12 / tray**

#### **These plants are exposed to full frost**

**Banksia occidentalis - Red Swamp Banksia** - one of the easiest banksias to grow, it forms a dense shrub to 3 m - narrow dark green serrated leaves - bears ruby red cylindrical flr spikes during Au - frost resistant.

**Boronia pinnata South West Rocks** - a showy plant to 1.5 m - the green pinnate leaves are scented - pink star shaped flrs in Sp - frost resistant.

**Callistemon Candy Pink** - fast growing shrub to 1.5 m - narrow foliage - bright pink brushes 3x a year - frost resistant.

**Callistemon Rocky Rambler (syn. C. pearsonii)** - open low growing bottlebrush to 30 cm high - small narrow semi-prickly leaves - short bright red brushes with yellow anthers during Sp - frost resistant.

**Correa glabra Mount Barker Beauty** - vigorous bushy shrub to 1 m by 1 m - dark green glossy aromatic foliage - red & green bells many months of the year peaking Au/Wi - frost resistant - may be grown as a hedge.

**Crocea Poorinda Ecstasy** - compact shrub to 1 m - lime green aromatic foliage - bright pink star shaped flrs all year round - sun or part shade - frost resistant.

**Crocea Southern Stars** - dwarf crocea to 1 m - very fine bronze tipped foliage - dark pink starry flrs much of the year - moist well drained soil - frost resistant.

**Darwinia citriodora** - a hardy attractive shrub growing to 1 m - succulent looking lemon scented foliage; turns a reddish colour in Wi - small unusual orange flrs during Sp - moderate frosts only.

**Eremophila Blue Thunder** - rounded shrub to 1 m - narrow deep green leaves - tubular purple flrs - tolerant of heavy soils, drought and frost.

**Eremophila decipiens** - shrub reaching 1 m - narrow green leaves - red tubular flrs most of the year - frost, lime & drought resistant.

**Eremophila glabra red** - shrub to 70 cm - sticky green leaves - bright red tubular flrs much of the year - frost resistant. *(flowering now)*

**Eremophila glabra Rottnest** - a showy shrub growing to 0.5 m high x 1.5 m wide - green serrated foliage - bright red tubular flrs from Wi till Sp - drought & shade tolerant - tolerant of light frost only.

**Eremophila maculata apricot** - hardy plant to 1.5 m - pale green foliage - yellow buds followed by apricot tubular flrs - frost & drought resistant. *(buds, some flowers)*

**Eremophila maculata cerise** - shrub to 1 m - orange buds followed by spotted reddish pink tubular flrs much of the year - tolerates drought, lime and frosts.

**Eremophila maculata pale pink** - hardy plant to 1.5 m - pale green foliage - yellow buds followed by pale pink tubular flrs - frost & drought resistant. *(buds, some flowers)*

**Eremophila microtheca - Tar Bush** - shrub to 1.5 m tall - very fine greyish foliage with tar like smell - mauve flrs in Sp & Su - frost & drought resistant. *(some flowers)*

**Eriostemon Bournda Beauty** - compact hardy shrub to 1 m - aromatic green foliage - pink buds opening to wh. star-shaped flrs during Wi & Sp - frost resistant.

**Eriostemon myoporoides long leaf form - Native Wax Flower** - shrub to 1.5 m - aromatic green leaves - pink buds and white starry flrs in Wi and Sp - tolerant of frost, lime and partial shade.

#### **140mm cont**

**Grevillea Austriflora Canterbury Gold** - ground covering shrub to 1.5 m high x 2 m wide - small green pointed leaves - yellow spider flowers in Sp & Su - frost resistant.

**G. Bronze Rambler** - open vigorous groundcover to 30 cm high x 4 m wide - deeply divided leaves with reddish new growth - dark red toothbrush flrs most of the year - tolerates heavy clay - frost resistant.

- G. Carol Ann (G. juniperina x G. Forest Rambler)** - decumbent hardy plant 2 m in width - dense non prickly foliage with an occasional upward growing branch - dark red spider flrs over a long period - frost & drought tolerant.
- G. Carpet Queen** - dainty prostrate plant - small pointed leaves similar to G. Poorinda Queen - apricot orange spider flrs in Wi, Sp & Su - frost resistant.
- G. diminuta** - spreading shrub to 1m - ornamental metallic coloured oval leaves - rusty red pendulous flr clusters in Sp - frost resistant - sun or part shade.
- G. Fireworks PBR** - an upright shrub to 1 m tall x 75 cm wide - soft dark green foliage - brilliant display of terminal red & yellow spider flrs from Au till Sp - frost tolerant. @\$5.50
- G. John Evans** - hardy shrub to 1 m - narrow dark green leaves turning reddish in Wi - masses of red spider flrs in Wi & Sp - frost resistant - tolerant of heavy clay.
- G. Jubilee** - compact rounded shrub to 1 m - narrow linear green leaves - unusual red, brown and yellow flr clusters during Wi to late Su - frost resistant.
- G. juniperina Molongolo** - hardy groundcover - prickly dark green linear leaves - buff yellow spider flrs in Sp and Au - frost resistant. (*buds*)
- G. juniperina Torrington** - low growing ground cover to 50 cm high by 1 m wide - broad prickly bright green foliage - orange/red spider flrs in Wi and Sp - frost resistant.
- G. juniperina yellow** - completely prostrate ground cover - dark green prickly needle like foliage - yellow spider flrs in Wi and Sp - frost resistant.
- G. lanigera Miniature** - dense groundcover - similar to G. lanigera Mt Tamboritha with finer foliage and greater frost tolerance - red flrs.
- G. lanigera Mt Tamboritha** - prostrate spreading plant - small soft narrow leaves - red and cream flrs in Sp - usually frost resistant.
- G. Lindsay's Pink** - vigorous shrub to 2 m tall – oval grey /green leaves similar to Grev. victoriae - pink flrs in Sp - frost resistant.
- G. Pink Pearl** (syn. G. Canberra Gem) - dense shrub to 2 m - prickly foliage - reddish pink flr clusters most of the year - frost hardy.
- G. Pink Pixie** - a dwarf form of G. rosmarinifolia growing to 0.5 m tall - narrow linear leaves - clusters of pink flrs in Sp - drought & frost tolerant. (*buds*)
- G. Poorinda Constance** - vigorous and hardy shrub to 2 m - dark green oval leaves - orange red spider flrs much of the year - frost resistant.
- G. Poorinda Diadem** - rounded shrub growing to 2.5 m tall - dark green oval leaves - large yellow / buff coloured spider flrs in Sp - frost resistant.
- G. Poorinda Queen** - hardy shrub to 2 m - apricot coloured spider flrs in Wi & Sp - small dark green leaves - frost tolerant.
- G. Poorinda Rondeau** - spreading shrub to 1.5 m high - narrow leaves, reddish in Wi - vivid red flrs in Wi & Sp - frost hardy.
- G. Poorinda Tranquility** - shrub to 1 m - small soft linear grey green leaves - pale pink and cream flr clusters in Wi and Sp - frost resistant.
- G. semperflorens** - the first recorded grevillea hybrid, growing to 2 m tall - soft fine foliage on arching branches - yellow & pink flrs most of the year - frost tolerant.
- G. Scarlet Sprite** - dense shrub to 2 m - green prickly needle like foliage - prolific scarlet flrs in Wi and Sp - frost resistant.
- G. Splendour** - hardy shrub to 3 m - dark green pointed leaves - large ruby red flower clusters most of the year - frost resistant - useful for hedges – tolerant of part shade.
- G. victoriae Murray Queen** - rounded shrub to 2 m - shiny green oval leaves - rusty red flr clusters in Wi & Sp - originated in the Kosiosko National Park & is hardy to frost & snow.
- G. victoriae yellow** - open shrub to 2 m - attractive oval grey /green leaves - buff yellow flrs in Sp - frost resistant.
- G. Winter Delight (G. lanigera x lavandulacea)** - hardy groundcover reaching 30 cm tall x 1.5 m across - soft grey linear leaves - showy red & cream flrs in Wi & Sp - frost resistant.
- Hibbertia aspera** - hardy ground cover growing to 60 cm high & 1 m across - small rounded green leaves - bright yellow flrs occur throughout the year - frost tolerant.
- Kardomia silvestris** - rare baeckea like shub to 2.5 m tall from the Dorrigo region - tiny green leaves to 4 mm long - small white flrs occur throughout the year - tolerant of frost.
- Kunzea ambigua pink** - hardy upright shrub to 3 m - small heathlike grey/green leaves - shrub becomes smothered in small fluffy pink flrs during Sp - frost resistant - useful screening shrub.
- Kunzea parvifolia** - small upright shrub to 1.5 m - fine aromatic foliage - pinkish purple pompom flrs in Sp and Su - frost hardy.
- 140 mm cont**
- Kunzea ericoides Snowman** - usful as a low hedge, this compact shrub grows to 50 cm high - small green leaves - masses of white lacy flrs in Sp - frost resistant.
- Leptospermum Burgundy Queen** - bushy shrub to 2 m - small burgundy coloured linear leaves - red flrs in Wi to Sp - frost resistant.

**Leptospermum Cherish** - a hardy shrub reaching up to 3 m tall by 2 m wide - oval green leaves - during Sp large white flrs are produced on long branches which are good for floral work - frost resistant.

**Prostanthera ovalifolia variegata** - vigorous shrub to 2.5 m - variegated fragrant foliage - purple flrs in Sp - usually frost resistant.

**Prostanthera phyllifolia - Mint bush** - erect bushy shrub to 1.5 m - small dark green aromatic leaves - purple bell shaped flrs in Sp - frost resistant.

**Prostanthera Poorinda Ballerina** - dense fast growing shrub to 3 m - dark green narrow leaves - masses of white flrs. in Sp - frost resistant.

**Stenanthemum scortechinii** - a dense shrub to 1 m for rockery or container culture - small pointed leaves - round woolly flr heads surrounded by golden brown bracts in Wi & Sp, ideal for picking & drying - frost resistant.

**Thelionema grande - Blue Flax Lily** - ornamental native lily growing 1 m high by 0.5 m wide - grey green strap like leaves - deep blue starry flrs on slender stems during Sp - frost resistant.

**Westringia Blue Moon** - compact shrub growing to 1 m x 1 m - soft grey green foliage - bluish mauve flrs throughout the year - frost hardy.

**Westringia Glabra Cadabra** - this hardy screening or hedging plant grows to 1.5 m - dense green foliage - violet flrs during Wi & Sp - frost tolerant.

**Westringia Jervis Gem** - a compact dwarf form of Wynyabbie Gem, this westringia grows to 1 m high - foliage similar to W. fruticosa - lilac flrs most of the year - salt tolerant.

**Westringia longifolia Snowflurry** - hardy shrub to 2 m - fine linear leaves - white flrs during most of the year - frost & drought resistant.

**Westringia Wynyabbie Gem** - fast growing shrub to 2 m - fine grey/green foliage - dainty mauve flrs most of the year - tolerates frost.

### **140 mm in small quantities @ \$4.10**

Callistemon Rowena

Cassinia subtropica

Correa Dusky Bells

Eremophila racemosa x maculata (buds/flrs)

Grevillea baueri

Grevillea baueri ssp. asperula

Grevillea Canberra Gem dwarf

Grevillea curviloba (syn. biternata)

Grevillea Fancy Nancy

Grevillea lavandulacea Penola

Melaleuca Revolution Gold

Philotheca salsolifolia Star Wonder

Thryptomene saxicola F.C. Payne

### **These plants are protected from frost**

**Austromyrtus Copper Tops** - a hardy spreading shrub reaching 0.5 m high with a spread of 1 m - arching branches of green foliage & coppery new growth - small starry white flrs in Sp & Su followed by edible grey berries - frost tolerant.

**Grevillea Firesprite** - hybrid between G. venusta & G. longistyla growing to 3 m tall - bright green deeply lobed leaves - large flame red terminal brushes throughout the year - frost tender.

**Zieria Carpet Star** - a compact prostrate plant spreading 50 cm wide - trifoliolate glossy green aromatic leaves - small starlike pink flrs during Sp - moderately frost resistant.

**200 mm pots - \$7.60 5/tray**

### **These plants are exposed to full frost**

**Callistemon Kings Park Special** - Bushy shrub to 5 m - red bottlebrushes in Sp - heavy soils - drought tolerant - frost tender when young.

**Darwinia taxifolia** - a reasonably hardy spreading species growing to 1 m tall - small grey green leaves with triangular section - clusters of wh. flrs aging to red occur in Sp & Su - pot culture or rockery plant - frost resistant. (*buds*)

**Eriostemon buxifolius Cascade of Stars** - compact shrub to 0.3 m with a cascading habit - chunky green foliage - pink buds opening to white starry flrs during Sp - frost resistant.

**Eriostemon myoporoides ssp. acutus** - hardy shrub to 1.5 m tall - small green aromatic leaves - pink buds followed by starry wh. flrs in Sp - frost resistant.

**Grevillea Carol Ann (G. juniperina x G. Forest Rambler)** - decumbent hardy plant 2 m in width - dense non prickly foliage with an occasional upward growing branch - dark red spider flrs over a long period - frost & drought tolerant.

### **200 mm cont**

**Grevillea Coastal Glow** - a fast growing shrub to 3 m tall - soft green foliage - red toothbrush flrs occur in Sp & Su - tolerant of heavier wet soils & frost.

**G. Honeveater Heaven (syn. G. lanigera Special)** - compact shrub to 1 m - soft green foliage - red and white flrs all year round - frost resistant. (*buds, some flowers*)

**G. Olympic Flame** - a neat compact plant growing to 1 m - small linear leaves - massed display of pink, red & cream flrs from Wi to Sp - tolerant of frost & dry conditions. (*buds*)

- G. Pink Pixie** - a dwarf form of *G. rosmarinifolia* growing to 0.5 m tall - narrow linear leaves - clusters of pink flrs in Sp - drought & frost tolerant. (*buds & flowers*)
- G. Poorinda Constance** - vigorous and hardy shrub to 2 m - dark green oval leaves - orange red spider flrs much of the year - frost resistant. (*buds*)
- G. Poorinda Queen** - hardy shrub to 2 m - apricot coloured spider flrs in Wi & Sp - small dark green leaves - frost tolerant. (*buds*)
- G. rhyolitica** - ornamental shrub reaching 1.5 m - the green foliage is soft & slightly sticky - large clusters of pendant red flrs throughout the year - sun or semi-shade - moderate frost only. (*buds & flowers*)
- G. Scarlet Sprite** - dense shrub to 2 m - green prickly needle like foliage - prolific scarlet flrs in Wi and Sp - frost resistant. (*buds*)
- G. Towera** - spreading shrub to 2 m tall x 4 m wide - deeply divided foliage with bronze new growth - pinkish mauve toothbrush flrs in Sp - frost hardy.
- G. Winter Delight (G. lanigera x lavandulacea)** - hardy groundcover reaching 30 cm tall x 1.5 m across - soft grey linear leaves - showy red & cream flrs in Wi & Sp - frost resistant. (*buds*)
- G. Winter Gold** - a shrub growing to 1.5 m x 1.5 m tall - bright green foliage - yellow spider flrs from Au till Sp - tolerant of frost & partial shade.
- Hardenbergia Happy Wanderer** - vigorous & hardy twining creeper - green heart shaped leaves - small panicles of violet pea flrs in Sp - moderately frost hardy. (*buds*)
- Westringia Glabra Cadabra** - this hardy screening or hedging plant grows to 1.5 m - dense green foliage - violet flrs during Wi & Sp - frost tolerant.

**Hiko Seedlings - \$0.75 - 2 Hikos or 80 Seedlings/nursery carton**  
*Each Hiko tray holds 40 plants & there is a deposit of \$2.50 on each tray*

**Some of these plants are exposed to frost while others are protected – please enquire**

- Callistemon viminalis - Weeping Bottlebrush** - ornamental tree/shrub to 10 m - pendulous green foliage - red bottlebrushes in Sp - tolerant of heavy soils and frosts.
- Callistemon sp. Bolivia Pink** - rare shrub from near Bolivia Hill growing to 3m tall - oval green leaves - bright pink brushes in summer - frost resistant.
- Casuarina cristata - Belah** - hardy farm tree to 12 m - long dark green needle like foliage & attractive seed pods - tolerant of hot, dry & saline conditions - frost resistant.
- Casuarina cunninghamiana - River Oak** - fast growing tree to 20 m - dark green needle like foliage - tolerates poorly drained & saline soils - frost resistant.
- Eucalyptus crebra - Narrow leaved Ironbark** - useful tree to 20 m - narrow green foliage - dark furrowed bark - woodlots and windbreaks - tolerates heavy soils - frost tolerant.
- E. scoparia - Wallangarra White Gum** - fast growing ornamental tree to 15 m - smooth straight white trunk - willow like olive green foliage - frost and drought resistant.
- E. sideroxylon - Mugga Ironbark** - tree to 20 m - pendulous grey-green foliage - pink blossom Sp & Au - clay & frost tolerant - useful timber.
- E. tereticornis - Forest Red Gum** - a stately tree to 30 m with a smooth bluish trunk & wh. flrs in Wi & Sp - tolerant of frost & poorly drained, saline soils - durable timber - koala tree.
- Grevillea robusta - Silky Oak** - a semi-deciduous tree to 25 m - large golden orange flrs in early Su - frost tender when young.

***Every attempt is made to send plants in recycled boxes where the transport company requires stackable cartons. This helps to cut down on the packaging costs.***

Plants become the responsibility of the customer as soon as they leave the nursery and we accept no responsibility whatsoever as to loss or damage etc. Freight is paid by the receiver.

**Tubes without labels \$1.90, Tubes with pictorial labels - \$2.20 40 /tray**

*If available, plants will be dispatched with pictorial labels, unless advised otherwise.*

**These plants are protected from frost**

**Acacia pendula - Myall** - A hardy slow growing shade tree to 18 m - grey weeping foliage - cream flrs in Wi - tolerant of poorly drained soils - long lived - frost and drought resistant.

**Brachychiton populneus - Kurrajong** - a tree to 8 m for paddock, street or garden - a dense crown of bright green foliage - cream bell-shaped flrs during Sp & interesting boat shaped pods in Su - may be lopped for stock.

**Brachyscome multifida Break of Day** - a neat hardy plant for the rockery or border spreading to 40 cm wide - bright blue daisies most of the year - medium frost only.

**Bush Lemon** - hardy bushy tree to 4 m tall - bright green citrus scented foliage - pale pink flrs in Sp - round dimpled lemons during Su - tolerant of frost & dry periods.

**Callistemon citrinus White Anzac** - attractive dense shrub to 1.5 m - oval green leaves - white bottlebrushes in Sp & Au - frost resistant.

**Casuarina cristata - Belah** - hardy farm tree to 12 m - long dark green needle like foliage & attractive seed pods - tolerant of hot, dry & saline conditions - frost resistant.

**Derwentia arenaria** - an upright hardy perennial growing from 30 cm to 1 m in height - green linear leaves - sprays of violet blue flrs over many months - tolerant of some shade & frost.

**Dianella revoluta** - a hardy native lily growing to 80 cm tall - grey/green flax like leaves - bright blue star like flrs with yellow anthers occur in Sp & then develop blue edible berries - frost resistant.

**Eremophila glabra Minginew Gold** - spreading shrub reaching 30cm high by 1m wide - fresh lime green leaves - yellow tubular flrs - frost resistant.

**Eremophila maculata pale pink** - hardy plant to 1.5 m - pale green foliage - yellow buds followed by pale pink tubular flrs - frost & drought resistant.

**Eremophila microtheca - Tar Bush** - shrub to 1.5 m tall - very fine greyish foliage with tar like smell - mauve flrs in Sp & Su - frost & drought resistant.

**Eucalyptus forrestiana - Fuchsia Gum** - an open shrubby mallee to 4 m tall - the red fuchsia like buds prized by florists are followed by a yellow flr in Su & Au - tolerant of drought & light frost.

**E. lesoueffii - Goldfield's Blackbutt** - mallee or small tree to 12 m tall - smooth white to pinkish grey trunk with rough base - ornate prominently ribbed buds & cream flrs in Su - enjoys heavy alkaline soils - tolerant of drought & moderate frost - grown commercially for the cut flower market.

**E. melliodora - Yellow Box** - a hardy all purpose tree to 16 m - rough bark - white flrs in Sp - Su - first class honey tree - useful timber - clay & salt tolerant - frost hardy.

**E. scoparia - Wallangarra White Gum** - fast growing ornamental tree to 15 m - smooth straight white trunk - willow like olive green foliage - frost and drought resistant.

**Grevillea obtusifolia Gin Gin Gem** - vigorous groundcover reaching 25 cm high x 3 m wide - soft narrow green leaves - red spider flrs in Wi - frost and drought resistant.

**G. Pink Pearl** (syn. G. Canberra Gem) - dense shrub to 2 m - prickly foliage - reddish pink flr clusters most of the year - frost hardy.

**G. Poorinda Constance** - vigorous and hardy shrub to 2 m - dark green oval leaves - orange red spider flrs much of the year - frost resistant.

**G. robusta - Silky Oak** - a semi-deciduous tree to 25 m - large golden orange flrs in early Su - frost tender when young.

**G. semperflorens** - the first recorded grevillea hybrid, growing to 2 m tall - soft fine foliage on arching branches - yellow & pink flrs most of the year - frost tolerant.

**Hakea salicifolia - Willow leaved hakea** - bushy windbreak shrub/tree 6 m - weeping foliage with rosy new growth - small white flrs in Sp - frost resistant.

**Leptospermum Copper Glow select** - bushy shrub to 2 m - weeping dark green and copper coloured foliage with reddish stems - large white flrs in Su - frost resistant.

**Lotus bertholetii** - a prostrate trailing plant ideal for hanging baskets - fine silvery green foliage - red pea flrs in Sp - frost tender.

**Melaleuca Revolution Gold** - shrub to 4 m - fine golden foliage with red stems - small cream brushes in Sp - moderate frosts only.

**Prostanthera Poorinda Ballerina** - dense fast growing shrub to 3 m - dark green narrow leaves - masses of white flrs. in Sp - frost resistant.

**Thelionema caespitosum blue** - a native lily with tufted grass like leaves growing to 30 cm tall - bears blue star like flrs on stems to 50 cm tall - frost resistant.

**Thelionema caespitosum white** - a native lily with tufted grass like leaves growing to 30 cm tall - bears white star like flrs on stems to 50 cm tall - frost resistant. (*descriptive label only*)

**Westringia Zena** - small compact form of *W. fruticosa* - grey foliage - white flrs - ideal for hedging - frost resistant.
